14. (Unclassified - JSW) Talked with Chairman Mahon who said he would very much like to have a short meeting with the Director at 1:30 P. M. on Monday. I advised him this would be fine. The Director's office has been notified.

15. (Unclassified - JSW) Talked with Carl Marcy as to whether or not the conferees had gotten to the Fulbright amendment to the Foreign Service Act. Marcy stated this was not yet reached and it will not be taken up before next Tuesday. He also indicated he was not aware of any problems with this although there may well be some technical objections which he has not heard of.

16. (Internal Use Only - JGO) Met with William Gullledge, Senate Post Office and Civil Service Committee staff, and, among other things, provided him with a copy of our background outline concerning retroactive application of the amendment to the annual and sick leave act providing for administrative leave in line of duty injury cases which is contained in H.R. 6277 now pending before House Foreign Affairs Committee. Mr. Gullledge was most appreciative of being kept advised on this matter and feels there will be little problem with the Senate Post Office and Civil Service Committee when the matter eventually is referred to the Senate.
